

***“Avviso di mobilità nazionale per titoli e colloquio, per la copertura a tempo pieno ed indeterminato di N. 50 COLLABORATORI PROFESSIONALI SANITARI INFERMIERI”,*** indetto con Deliberazione n. 254 del 22 marzo 2019.

**ESITO PROVA COLLOQUIO GIORNATE 24 - 25 - 27 – 28 luglio 2020**

The figure consists of a 4x4 grid of 16 black horizontal bars. The bars are arranged in four rows and four columns. Each bar's length is determined by its position in the grid: the first column has bars of lengths approximately 10, 15, 10, and 10; the second column has bars of lengths approximately 15, 10, 15, and 10; the third column has bars of lengths approximately 10, 15, 10, and 10; and the fourth column has bars of lengths approximately 10, 15, 10, and 10. All bars are black and have a consistent thickness.

A bar chart illustrating the distribution of 1000 random numbers generated between 0 and 1. The x-axis represents the value of the random number, ranging from 0 to 1. The y-axis represents the frequency of each bin. The distribution is approximately uniform, with most bars having a height of 10. The bars are black and are separated by thin white spaces.

4950593

A 20x20 grid of black bars. The bars are arranged in a pattern where they are mostly absent from the first four columns and the last four columns, but are present in the middle columns. Each bar spans approximately 4-5 columns. The bars are located at various vertical positions, creating a sparse, scattered appearance.

I candidati non presenti nell'elenco di cui sopra sono risultati non idonei alla prova colloquio.
